SKILLS TECHNOLOGY

SUMMARY

I have 5+ years of experience in Software development experience, mostly on the mobile platform. Started my career as a J2ME and Blackberry developer I was responsible for developing consumer applications at a startup. I also invested time and effort in developing skills required to build Android and iPhone/iPad application. As a developer, I enjoy all the challenges this industry offers such as delivery, technology, innovation, leadership and learning something everyday. My objective is to help make the best of class software products in the world and win customer affection for making a real difference.
